JĀNORPOT®

ROUND CONTAINERS & FILLING TRAYS

CREO Greenhouse's JānorPot® round pot system is innovative, automation-friendly and a branding powerhouse.

Complete System

- Filling trays that match JānorPots®.
- Various sizes and configurations ready for automation to reduce labor costs.

Customization & Branding

- Available in a wide array of colors.
- Custom printing options: barcodes, up to 8-color logos, labeling and full-color wrap printing.

Innovation & Automation

- First North American-produced line of thermoformed, thin-walled round pots.
- Automation-friendly design for large-scale growing.

Material & Environmental Impact

- Interior layer made from 100% reclaimed plastic.

Design Features

- Smooth rolled lip with no sharp edges, aiding in de-nesting and automation.
- Dual-drainage system for optimal air/water exchange to enhance plant growth.
- Standard clean-punched tag slots on select sizes for compatibility with major retailers.
- Black interior promotes ideal rooting environment.

CUSTOM SERVICES

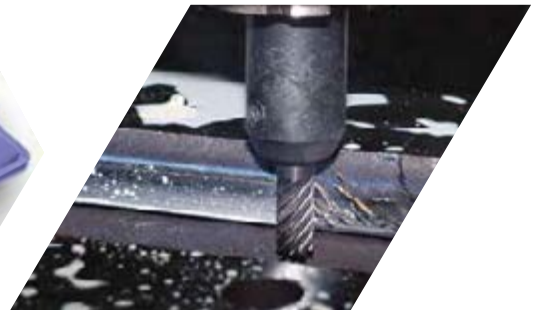

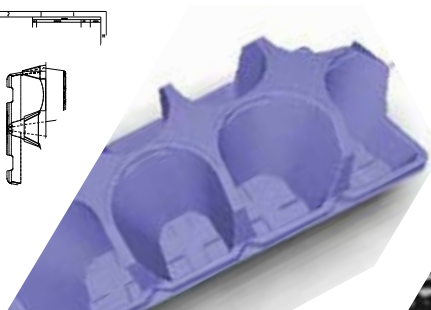

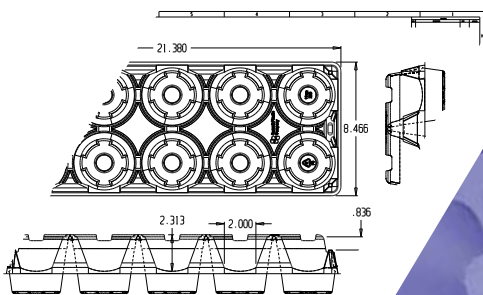

DRY-OFFSET PRINTING

For more than 20 years, we've partnered with brands, breeders, retailers and growers to develop successful, long-term programs that drive sales.

Our industry-leading print department and designers will guide your project from concept through production and deliver a high-impact look that promotes your branding and marketing initiatives.

LABELING

We offer labeling applications ranging from small UPC barcodes to large, decorative branded labels. From advanced materials to enhance your packaging to peel-away options that eliminate the need for tags, the possibilities are endless!

TOOLING

Our team of engineering and tooling experts — with over 100 years of combined experience in mold-making for the horticulture industry — can work with you to design your custom product.

FOREVER FORWARD™ POTS & TRAYS

Meet your new freight-cutting greenhouse pot. Forever Forward™ is your greenhouse's new ally in efficiency. Save thousands in freight.

Always Faces Forward

- Designed to face the direction that will maximize the presentation on any retail bench.
- Pots go into trays correctly the first time, every time, requiring no manual adjustments to orient pots and guaranteeing optimal retail appeal.

Easy To Pot. Easy To Spot.

- The uniform display makes your product easy to identify.
- Additional information can be applied to the back surface.

Branding Flexibility

- Space for larger adhesives.
- Label capability on front and back of container.
- Longer UV resistance vs. standard container printing.
- High-quality flexographic printing.
- Options for attention-grabbing creative effects.

FOREVER FORWARD™ POTS & TRAYS

SAVES ON SPACE, SAVES ON FREIGHT

- Holds up to 70% more product on every rack compared to traditional containers.
- Pots fit matching trays — pot tight — to maximize cubing through filling, sticking, growing and retail.
- Easy way to optimize efficiency across your operations.

Automation-Friendly

- Automation-friendly and available in a variety of colors and container sizes.

100% Recyclable

- True to CREO Greenhouse's commitment to sustainability, our Forever Forward™ pots and trays are 100% recyclable with industry-leading PCR/PIR.

PROPAGATION TRAYS

CREO Greenhouse's Root Tutor™ and Root Stepper™ propagation/plug trays are uniquely designed to promote optimal root structure and growth.

Root Tutor™

- Internal channels force root direction down to meet the large bottom holes to stimulate air-pruning.
- Bottom holes are cleanly and fully punched for automation equipment.

Root Stepper™

- Designed to enhance development of very fine roots necessary to promote absorption of water and micronutrients.
- Stepped design encourages large root mass for speedier plant growth when placed in larger containers or in the garden.

Available with or without drainage holes

X-NCR Tray

SIZE WISE®

10" X 20"

Size Wise® products are built on a 10" x 20" footprint.

- **Market Mate™** packs offer generous cell volumes, pop-up bottoms and a variety of handle insert points to fit your markets' needs.
- Low Rider flats offer maximum space for label application and scanning at retail.
- Select sizes of inserts come standard with tag slots compatible with big-box retail where required.

Inserts and flats offer the economy of scale with big design features: ample cell volume, excellent drainage slope and ideal height for precise label application.
